Darrel,

I received a call today from Patti Brace, City Clerk - Pretty Prairie. In response to EPA's letter, she invited EPA to attend a meeting with the PP City Council and utilities staff. Possible dates include November 18 and Dec 2 - 4. I told her we were wanting to include KDHE in such a meeting.

Can you please check your calendar for availability for those dates? I think the meeting would be like 1:00 - 3:00.

Our agenda would be to talk with them about developing a plan to come into compliance with the Nitrate MCL, and ultimately to sign up to an agreement with EPA - or KDHE (if you are agreeable) - to outline the plan to make that happen. We'd certainly want to meet with you folks and strategize in advance of any meeting, given your experience with this situation.

Please let me know your availability and give me a call if you'd like to discuss.

Thanks  
Scott
